Art Collection Management

Collection management services include on-site inspection, photography and documentation according to museum registration standards. We also assist with loans to institutions and oversee transportation and installation of artwork at secondary locations.

Fine Art Appraisals

Jeanie Craig is an Accredited Senior Appraiser (ASA), Fine Art, with the American Society of Appraisers. Appraisals are thoroughly researched, USPAP- and IRS-compliant legal documents for insurance coverage, charitable contribution, estate or inheritance tax, equitable distribution and damage/loss. Specialties: modern and contemporary American and European art: paintings, drawings, prints, photography, sculpture and installations. California and Bay Area artists are a particular focus. We bring in and collaborate with expert specialist appraisers if a collection includes Asian or ethnographic art.

About Jeanie Craig

Jeanie has over 20 years experience in the visual arts, and has strong relationships in the San Francisco Bay Area art community and beyond. Pro bono work has included planning and leading numerous art-focused day tours, lectures and domestic and international trips for the di Rosa Preserve in Napa and the Oakland Museum of California. Her education as an art historian has been invaluable in analyzing, categorizing and writing about the artwork she appraises. Over the years, Jeanie has developed an extensive library of art reference books, exhibition catalogs, artist monographs and catalogs raisonné. She keeps current with art market trends by regularly attending galleries, museum exhibitions and art lectures, as well as educational seminars and conferences related to fine art appraisal theory and practice.
